

**SIR ARTHUR LEWIS COMMUNITY COLLEGE**

Division of Agriculture

END OF SEMESTER TWO EXAMINATION – MAY 2015/2016

PROGRAMME TITLE : General Agriculture – Certificate  
COURSE TITLE : Crop Production and Technology  
COURSE CODE : CPT111  
DATE : 4<sup>th</sup> May 2016  
TIME : 9:00 a.m.  
DURATION : 2 ½ hours  
ROOM : Room 1 & 2  
INVIGILATOR(S) : All Lecturers

**INSTRUCTIONS:**

- ANSWER ANY FOUR QUESTIONS.
  
- BEGIN EACH QUESTION ON A NEW SHEET

1. (a) Define the terms "crop" and "crop production". (5 marks)
- (b) Discuss three environmental factors that affect crop production. (6 marks)
- (c) Explain why market, capital and expertise are important factors to consider before even going into production. (9 marks)
  
2. (a) State three objectives of good land preparation. (6 marks)
- (b) Compare the physical and chemical properties of the three main soil types. Use a table format. (10 marks)
- (c) Explain why drains are an important component of land preparation. (4 marks)
  
3. (a) State three reasons why water is important to crops. (3 marks)
- (b) List four methods of testing for soil moisture and explain how any two methods named work. (8 marks)
- (a) Name three methods of irrigation and give one advantage and one disadvantage of each method named. (9 marks)
  
4. Pests including weeds can have detrimental effects on crop yield
  - (a) (i) Define the term "weed". (1 mark)
  - (ii) List four methods of weed control. (4 marks)
  - (iii) Explain two ways weeds affect crop growth. (4 marks)
  - (b) (i) Insects are a major group of crop pest. Categorise insect pests based on their feeding methods. (3 marks)
  - (ii) Suggest to a farmer three methods of controlling insect pests, apart from chemical method. (6 marks)
  - (c) Explain what is meant by integrated pest management. (2 marks)
  
5. The harvest stage is the most rewarding part of the crop cycle.
  - (a) (i) Define the term "yield". (1 mark)
  - (ii) Name the methods of harvest and state two reasons for selecting a particular method. (6 marks)
  - (b) State the two major objectives of post harvest technology. (4 marks)
  - (c) Discuss three ways the objectives in (b) can be achieved. (9 marks)

**END OF TEST**
